Introduction

CoinLayers (coinlayers.com) Platform is a friendly platform with Sophisticated Technology Concept (STC),

CL platform was intended to bring simplified, liquidified and secured Exchange to the Cryptocurrency Exchange system.

LayersToken(LAYT) is a coin developed to manage and fuel some angles of the CoinLayers Exchange System.

CoinLayers Exchange

Trade on our platform does not have a closing hour, it means the marketplace is opened 24/7.

Our platform is capable of hosting over 2,500,000 traders and sustain as much orders people can set, with the most simplest and user friendly platform ever.

Feature Available

This are the following feature available:

- 3 types of orders: Buy, Sell, Stop Loss
- Security Settings; Two Factor Authentication, Secrete PIN, Account Locked features, Account Freeze features
- Public and Private API for the public and developers
- Incognito instant exchange
- And more...

Base Coins

CoinLayers will support trading pairs in the following coins for now:

- BTC
- ETH
- LTC
- DOGE
- LAYT (LayersToken)

Other Cryptocurrency may be added in the future. This is a Cryptocurrency trade platform, no room for any kind of fiat currency

Trade Platform

- Web-based trading platform
- Android App (under development)
- iOS App (under development)
- Mobile HTML5 platform
- REST API

Support

Support is available to assist you on any issues, through our support platform, services are available 24 hours a day, 7 days a week.

We will support English for now, and more languages will be added over time.
